### DETAILED ACTION

1. in response to Applicants' communication with the Office on 2/28/2005 the Official Office Action issued on 2/18/2005 is withdrawn.

### Election/ Restriction

Claims 1- 24 are pending in this application.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

**I. Claims 1-15 , drawn to a memory semiconductor device, classified in class 257, subclass 337 and method for making the memory device classified in class 438 subclass 270**

**II. Claims 16, drawn to a system with microprocessor , classified in class 700, subclass 90.**

2. The inventions are distinct, each from the other because of the following reasons:  
Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the system can be patentable with a novel ALU ( arithmetic Logical Unit ). The

Art Unit: 2818

subcombination has separate utility such as: the claimed memory device can be used in other applications such as memory for an EEPROM smart card.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the fields of search are not co-existent. Therefore, separate examinations would be required and restriction for examination purposes as indicated is proper.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
